

# How to Make a Fairy Door

1. Place this paper on a flat surface.

2. Place six popsicle sticks, side-by-side on the pattern above.
3. Press a piece of duct tape on top. Make sure that it touches all of the sticks. (You can also use a piece of paper with craft glue on it.)
4. Turn over your door.
5. Decorate your fairy door as you wish with paint, crayons, or markers.
6. Use the two remaining half-stick pieces as door brackets and the button for a door knob. Attach them to the front of your door with craft glue.
7. Let dry completely.
